### What is bespoke?

- Bespoke simply means custom-made, allowing architects and interior designers to work with our experienced in-house design team to manufacture made-to-measure products, providing exclusive built-in solutions and styles for a specific interior.
- Although we offer a wide portfolio of standard furniture suitable for various sectors, including Office, Education, Healthcare, Bar & Restaurant, Hotel and Retail, some clients need products specifically designed to meet their requirements.
- Our bespoke furniture is manufactured to complement your unique interior while ensuring the seating is fit for purpose.

### Benefits of bespoke furniture

- Made-to-measure furniture enables efficient use of space.
- Seating designed for specific needs, for example, certain environments require a greater focus on durability or comfort.
- A wide range of materials to choose from and, along with expert advice from our in-house design team, we can ensure a high level of quality for the client.
- A competitively priced furniture solution can be exclusively designed, manufactured and installed for your specific interior.

### Manufactured to the highest standards

- Quality upholstery by skilled craftsmen.
- Durable construction with carefully selected fabrics.
- Hardwood and birch plywood frame construction for contract use.
- Combustion Modified High Resilience (CMHR) foams.

#### Our Process

- Discuss your project and design requirements with our experienced team.
- We can carry out a site survey and, using CAD software, produce plans, elevations and 3D renderings of the seating concept.
- We will prepare a budget quote to your chosen design, specification and dimensions.
- With the design approved and prices confirmed, our skilled workforce will begin the manufacturing process.
- Working to an agreed completion date, we will arrange a suitable time for delivery and installation.
- The manufacturing process from point of order takes 4-6 weeks.

## banquette seating

Banquette seating normally comprises straight runs of upholstered benching, fixed along walls or within alcoves, with seating plans designed to maximize the internal space.

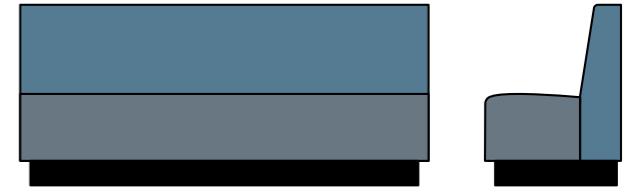

Whether your interior requires semi-circular booths, angled or curvilinear seating, we have a wide choice of seating styles, durable fabrics and plinth finishes.

Our bespoke furniture design service allows you to choose materials and detailing to ensure that your banquette seating plan is fit for purpose combined with distinctive fabrics to add visual impact to any interior.

## Top

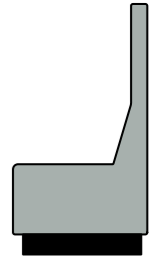

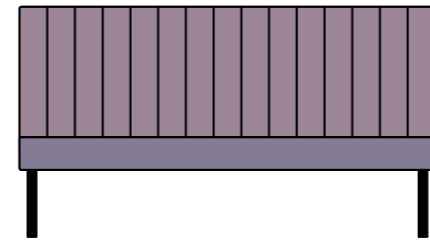

The s560 bench uses a wall-fixed cantilever seat design to create the appearance of a floating seat with easy access for floor cleaning.

## Middle

The s540 bench is a traditional and versatile banquette seating design for restaurants and canteens.

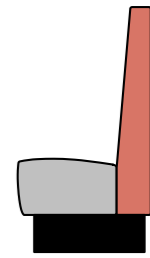

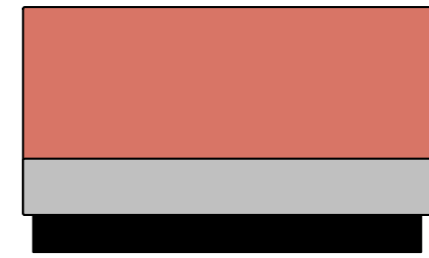

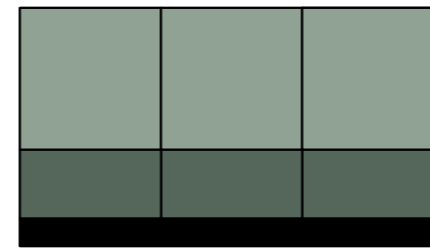

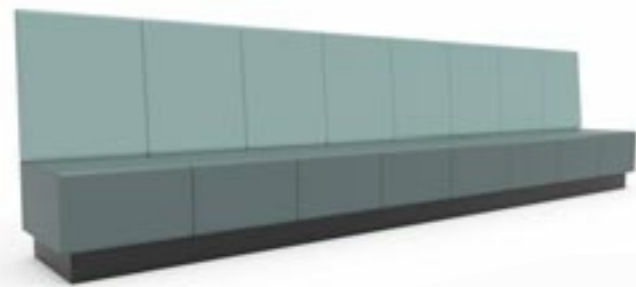

## Bottom

The s520 bench design has generous proportions with a plinth and metal leg detail which adds visual interest to the furniture scheme.

Top  
The s530 sled bench with sewn fluted backs can be used in linear runs or to create meeting and dining booths with a feature back wall.

Middle  
The s570 high back bench uses a 650mm modular seat width which creates a strong visual statement when used in repetition along a wall.

Bottom  
The s550 bench with a distinctive horizontal rolled-back design is available at various heights to create a strong upholstery feature.

## booth seating

As specialist booth seating suppliers, our bespoke solutions are designed for the contract furniture industry which includes Healthcare, Bar & Restaurant, Education, Office, Hotel and Retail.

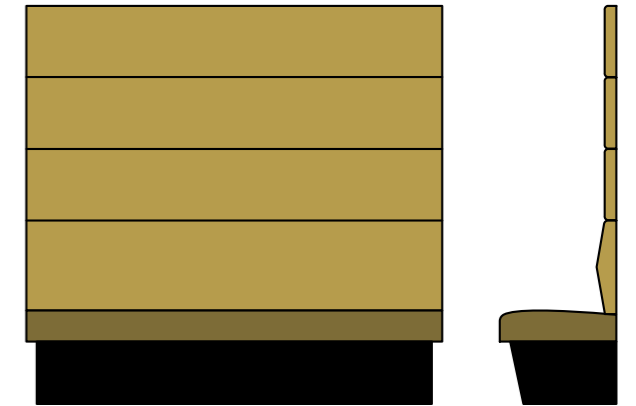

Designs range from agile office meeting pods, diner booths to luxurious deep soft seating and, depending on your project requirements, we can design and manufacture a bespoke seating layout just for you.

mrfdesign have completed bespoke booth seating projects for a wide range of clients which include Carwow, Zopa, Paddypower, Fever-Tree, Transferwise and many more.

## Electrics & Lighting

mrfdesign selected the innovative power modules from OE Electrics to incorporate electrical and data distribution into our soft seating designs for agile offices, meeting pods and booths for collaborative working.

We can also incorporate ceiling roses for pendant lighting and fit compact LED lighting panels, uplighters or task lighting to offer additional lighting levels.

### Upholstery Details

We can guide you through the wide choice of upholstery styles and details, starting from the basic upholstered plain seat with piping to enhanced detailing, such as fluted stitching, deep and shallow buttoning, diamond button detailing, quilted panelling or deep fluting.

All of the above upholstery details can be offered in a wide range of fabrics, leather and vinyls with samples available on request.

## Tables and bases

We supply a wide range of table tops and bases to complement our bespoke seating solutions. Here we have a selection of our most popular freestanding tables available in a variety of finishes. These include custom laminate colours, walnut, oak, beech and solid block tops. Customers may also require floor fixed table bases for easy ingress and egress from booths.

## Opposite page

Our fixed booths can be fitted to any pre-constructed walls, making the the ideal solution for flexible meeting spaces. Contract upholstery designed for collaborative, work lounge and reception areas to create friendlier and more inviting working environments to improve team communication, motivation and productivity.
