

Recommended by professionals and **easy to use** for homeowners

JUNCKERS REFRESHER

The ultimate maintenance reviving product for dull looking and tired lacquered wooden floors. For use in domestic and commercial areas.

- ✓ Junckers is now introducing a quick drying maintenance refresher as a supplement to our well known floor lacquer systems.
- ✓ The Refresher is suited for use on all wooden floors sealed with one of Junckers water or solvent based lacquers.
- ✓ Junckers Refresher revives a dull looking surface, hides minor scratches and protects the floor.
- ✓ The lifespan of the floor is improved and by regular maintenance the surface will always appear as new with a uniform and beautiful look.

Recommended by professionals and **easy to use** for homeowners

Easy and quick to use

1. Remove dirt and grease by using Junckers SylvaCleaner or Junckers SylvaNeutralizer
2. Start by shaking the Refresher thoroughly while it is still in the container.
3. Use a flat floor mop to apply an even thin layer and then leave to dry.
4. Drying time is approx. 1-2 hours and the floor is ready for light traffic after 3 hours.
5. Remember to clean the tools with clean water immediately after use.

How often?

The frequency of treatment depends on foot traffic levels. Floors with higher levels of traffic will require treatment more often.

Junckers Refresher in combination with Junckers lacquers

Junckers Refresher is specially formulated to allow it to be over coated with Junckers lacquers as and when required this is – only a light sanding before adding a new coat of Junckers lacquer is necessary.

Package size and gloss level

Available in package sizes of 2.5 and 5 litre in a silk matt finish.
