

4701

hand-drawn

for light and medium-weight curtains

Rectangular and sleek

4701

hand-drawn rectangular & sleek

The Goelst 4701 track is a pretty rectangular profile. It is also frequently fitted in a channel cut into a wooden mounting surface. An attractive, sleek track that can be used in your home or office building.

- The ideal track for sheers and lightweight or medium-heavy curtains.
- Easy to bend and exceptional quality.
- Can be forward or reverse bent in different radii.
- Ceiling mounting invisibly or by using a metal fixing bracket.
- Compatible with the Goelst Flow System for regularly pleated curtains.
- Silent and smooth running, also round bends.

Standard colours

High quality, wear-resistant coating, highly colourfast, UV-resistant.
Other RAL colours & special coatings on request.

Features

Material:	aluminium
Colour:	white, natural anodised
Dimensions:	10 x 15 mm

R 10 cm	1015
R > 80 cm	1018

R 10 cm

R > 80 cm

Flow

The Goelst Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.

Mounting

Pre-punched track from the 4700 series mounted using cross-head screws 2314

4700 mounted with ceiling bracket 4750 and a standard wood screw.

Punch types

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

Application example

4701 with end cap 4753-12

Application of the 4753-12, a product with two functions:
only as end cap or as end cap and end stop.

Specification guide

Material

- Aluminium EN AW-6060-T66.
- Anodised in accordance with the Qualanod standard.
- Powder coated in accordance with the Qualicoat standard.
