DEPLOY TABLE RANGE

Engineered.
Flexible.
Tailored.

The Boss Design Group is the UK's market leading manufacturer of high quality office seating, upholstery and tables, and enjoys global success within this design-led sector. The group comprises of the Boss Design, Lyndon Design, Komac and Unifi brands, which in turn serve particular market sectors.

The company leads by example through the delivery of an intelligent and evolving portfolio, whilst maintaining the best ethical standards.

The Deploy table range features superb engineering, extensive tooling investment and incorporates only the finest materials and components.

All of our meeting and conference table collections are supported by our highly trained, in-house delivery and installation teams who take complete ownership of the delivery and installation process to ensure that our tables are installed to the highest possible standard.

MULTI TASKING

Designed by Broome Jenkins, Deploy is a single table designed to fulfil a broad range of sizes and functional requirements.

Following extensive research the Deploy table range accommodates the changes taking place in the modern workplace, negating the need to specify numerous different table styles.

Deploy is available with either a static or flip top in two heights of 740mm and 1100mm. Table top sizes range from 1200mm x 700mm to 3000mm to 1500mm.

This image shows a 2400 x 1500mm static top Deploy table, 740mm high with an oak veneer top. The accompanying chairs are from the Komac Kara range.

SIMPLE STRUCTURE

Deploy's engineered structure and reliable mechanism ensures durability, solidity and a sleek aesthetic.

Integrated.
Streamlined.

This image shows a 2400 x 1500mm static top Deploy table, 740mm high with a Black American Walnut veneer top. The accompanying chairs are from the Boss Design Tokyo range.

Deploy features a steel painted table structure and a polished aluminium leg frame. Castors or glides are fitted as standard.

The Deploy range offers full power and data integration to enhance individual performance.

EASY RECONFIGURATION

Due to its light weight structure, the Deploy flip-top table can be effortlessly and quickly reconfigured. The flip-top mechanism and twin-wheel castors allow the table to be moved with ease.

Changeable.
Collaborative.

This image shows five 1500 x 750mm flip-top Deploy tables, 740mm high with a white MFC top. The accompanying chairs are from the Boss Design Starr range.

SPACE OPTIMISATION

Formation.
Shape.

From rows of desks for individual work to formal conference meetings, Deploy can be re-configured to create the most efficient use of space.

When not in use Deploy neatly nests together and can be stored away using minimum space; ideal for classroom and training environments.

This image shows five 1500 x 750mm flip-top Deploy tables, 740mm high with a white MFC top. The accompanying chairs are from the Komac App range.

This image shows an 1800 x 800mm flip-top Deploy table, 1100mm high with a white MFC top. The accompanying chairs are from the Boss Design Arran range.

EASY STORAGE

Compact.
Adaptable.

How to use your Deploy

To flip the Deploy table into a vertical position press the red release button located within easy reach on the underside of the table top. With minimum effort the table gently flips into position.

The clean design allows for simple nesting together when space is at a premium.

ACCESSORIES

Cable Tray

Cable Management

Modesty Panel
The removable grey vinyl panel easily hooks onto clips underneath the table top. Other colour variations available (subject to a minimum order quantity).

Cable Tray
The removable grey vinyl tray discreetly hides power cables. The tray easily hooks onto clips underneath the table top.

Cable Management
The magnetic grey vinyl panel discreetly houses all power and data cables. The panel can be removed from the leg when not in use.

Power and Data

Pixel

Flip Top

Platinum

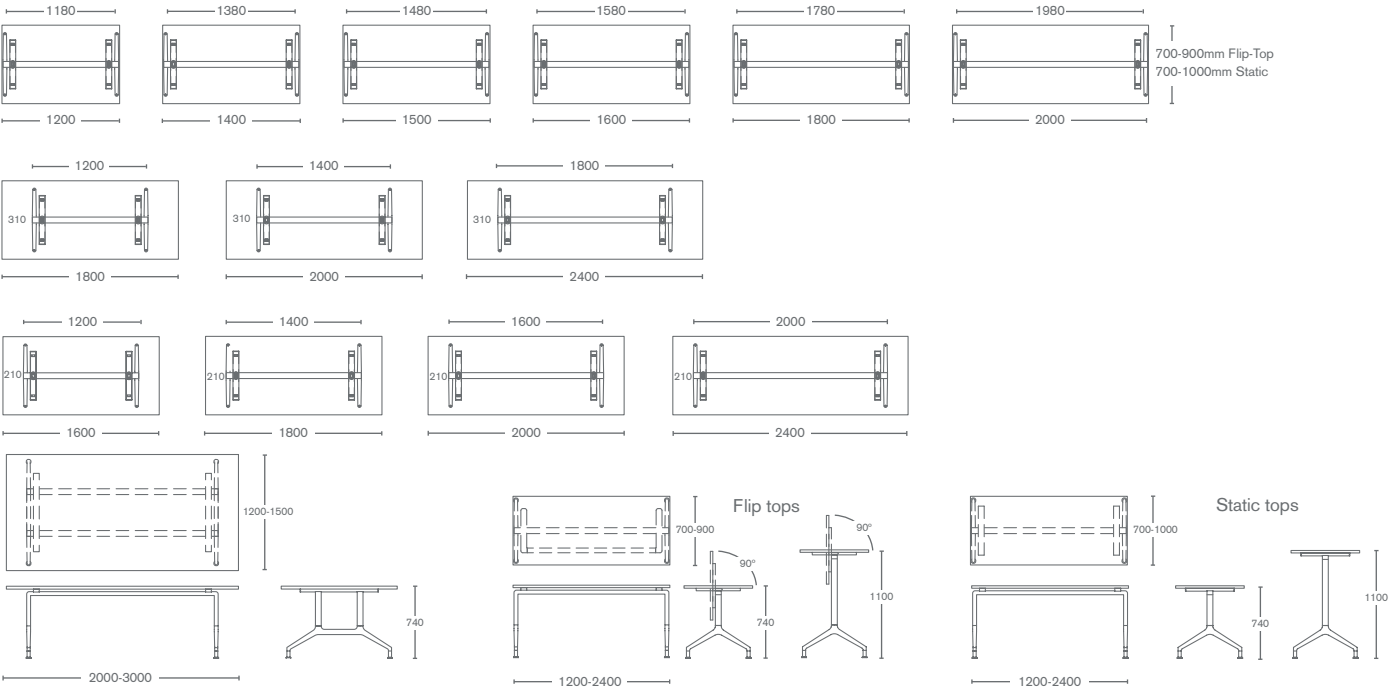

Prism

Full power and data capability
Boss Design use the Office Electrics Platinum, Prism and Pixel units and the Evoline Flip Top power and data units. Versatile and fitting flush to the worktop, the units allow full use of the workspace.

Where discreet access to power and data units is required on the surface of a table, the option of a matching self veneered access flap is available. When power and data is specified, price and delivery will be confirmed upon application.

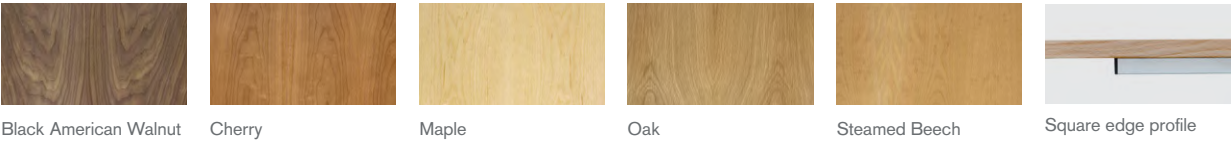

SPECIFICATIONS

High table max length = 2000mm

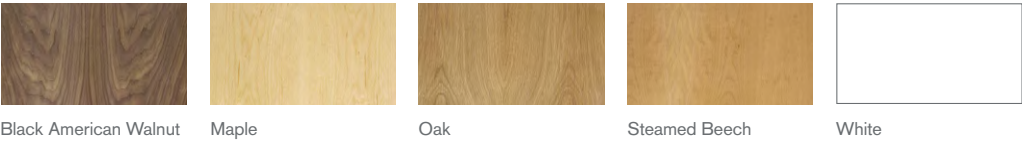

Finishes

Standard table top veneer options

Standard table top melamine (MFC) options

Deploy flip-top 1400 x 700mm, 740mm high, white MFC top	•	3	•	38.54	100	•

Delivery and Installation

At Boss Design we provide a full delivery and installation service using our own fully trained delivery and installation teams. This is our preferred solution for the Deploy range to ensure that tables are constructed to the highest possible standard of build.

All table tops and frames are carefully wrapped for transportation. Once on site, our experienced teams will unwrap and position as per your instruction, build the tables as required and remove any used packaging from site for responsible disposal.

Depending upon your project requirements, an out of hours installation or phased installation plan may be actioned.
